Save the Date

The Symposium the year will feature Sam Angelo, a prolific turner from Wyoming, on Sat. Sept. 7 and Sun Sept 8, 2019. Details will be posted as they become available.

Sam Angelo can be seen on numerous videos on youtube.com

April 3 Demo

On April 3, Wayne Petrini gave a great demo on a bowl with handles. It involved multi axis turning to create an oblong shape which are the 'handles'. After shaping the outside of the bowl and making a tenon, two holes 1" off center in each direction are drilled for the drive spur to set in. Then a rim is turned from each offset and the bowl re-centered and finished shaping and hollowing.

Thanks Wayne, for the great demo.

April 20 Demo

At the April 20 meeting, Sam demonstrated tri-corner bowl. The blank is mounted between two cup centers and a tenon is shaped on one end. After shaping the bowl, it is mounted in a chuck to shape and hollow out the inside.

Using a jig to size the tenon

Sam's Demo

Demonstrators Wanted

Looking at the following list, we have demonstrators lined up for the next two months. The club will not meet in July , but after the Club picnic, demonstrators are needed to fill out the calendar for the remainder fo the year. Please consider doing a demo fro the club. There are 31 members but only 7or 8 people volunteer to do most of the demos. Everyone has something to offer the club . If you have turned a project , you have a demo. If you have made a jig to make some aspect of turning easier, you have a demo. Even beginning turners can do a demo, And if you do not want to present alone, you can co- demonstrate with another turner.

Sign up sheets will be available at the meetings

We need new people to step up.

PLEASE.

Great Falls Woodturners Club Meeting/Demo 2019 Schedule

May 7 – Meeting/Demo -
Chuck Kuether

May 18 - Demo - Jay Eklund

June 4 – Meeting/Demo –
Randy Setzer

June 15 - Saw Dust Session
Bring your project to work on

The Lighter Side of a Darker Subject

Chuck Kuether sent this to me and wanted to share with everyone. He was requested to turn an urn for his brother - in - law, so doing it in the usual Kuether way, it had to be 'different'. Along with the usual brass threaded lid, it also includes some custom features not found in most urns. See the explanation at the end.

December 24, 2018

OK, Bud, here it is—Your HOME AWAY FROM HOME!
i.e., your custom-fashioned funerary urn, as requested.

*This urn is delivered with a strong request that you not
exercise occupation any sooner than absolutely required.*

I've tried to make your home as comfortable as possible.
The urn's security lid requires several revolutions to open it;
that means added quiet and safety.

In addition, I've included "deep pile" carpet
so that you can go around barefoot,
keeping your feet warm and comfortable.
Of course the carpet incorporates the logo
of your favorite team, the **Green Bay Packers**.
As an owner, you can take them with you!

I've included, at no extra cost, an appropriate
and relaxing armchair so that you can view
your favorite TV shows on the much sought-after
latest in high definition flat-screen miniature TV.

Last but not least, you will notice two special
blackout windows allowing you to look out,
enjoy the view, but maintain complete privacy.

This urn is the latest model in this series. Its features
include complete portability; and with its wide base
for stability, there is no need for the use of a cane.

This vessel is completely comfort controlled—
no worry about winter drafts or dust or rain.
All property taxes have been paid in advance
so you will have perpetually LOW operating costs.

Thank you for selecting my personalized manufacture
for your urn. I have been enjoying imagining you
in a better world, while your earthly remains
are at peace—along with pleasant diversions.

I hope you will enjoy your new home—BUT PLEASE

hold off as long as possible before exercising occupancy!

Chuck
