

# ONE GOOD TURN

Meetings: First Tuesday of the Month 6:30PM Demos: Third Saturday 12:30PM

Great Falls Fire Training Station 1900 9th Street South Great Falls MT 59405

## Beads of Courage

Thanks to all who made boxes for the Beads of Courage program. This will be an ongoing program because it is for such an important cause. Members are encouraged to make a box or boxes to donate

## May 7 Demo

At the May 7 meeting, we were treated to another fine demonstration by Chuck Kuether. He showed us how he formulated his idea of an emerging shape within a shape and then proceeded to give a detailed lesson in how to go about making the project a reality. Very interesting and unique. Thanks to Chuck.

## Save the Date

The Symposium the year will feature Sam Angelo, a prolific turner from Wyoming, on Sat. Sept. 7 and Sun Sept 8, 2019. Please see the notice at the end of this newsletter for registration info.

Sam Angelo can be seen on numerous videos on [youtube.com](https://www.youtube.com)

The shape within a shape, the inner shape continues the angle of the bottom and culminates with a cup recess at the top. It can be used as a candle holder, or a 'stand' for an object such as a sphere

After making a tenon on the end for mounting the middle of the piece is sized before turning to intended shape.

Hollowing out the top

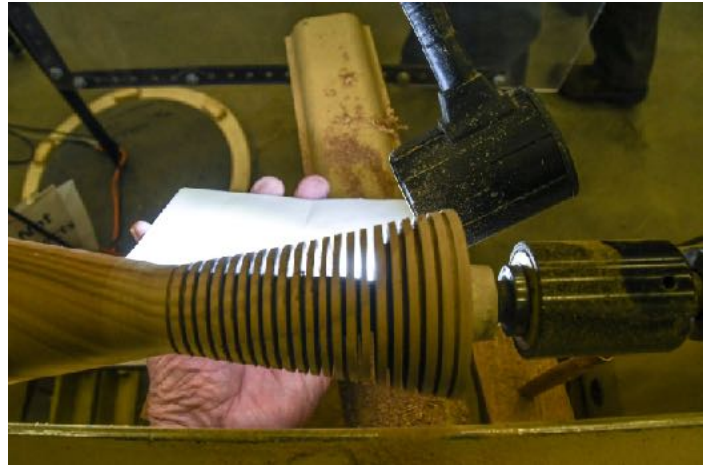

A home-made cup center is made from a rubber stopper drilled out to fit the threads of the live center.

A narrow parting tool is used to make the grooves.

A back-lit piece of paper is used to see the depth of the cuts to control inner shape.

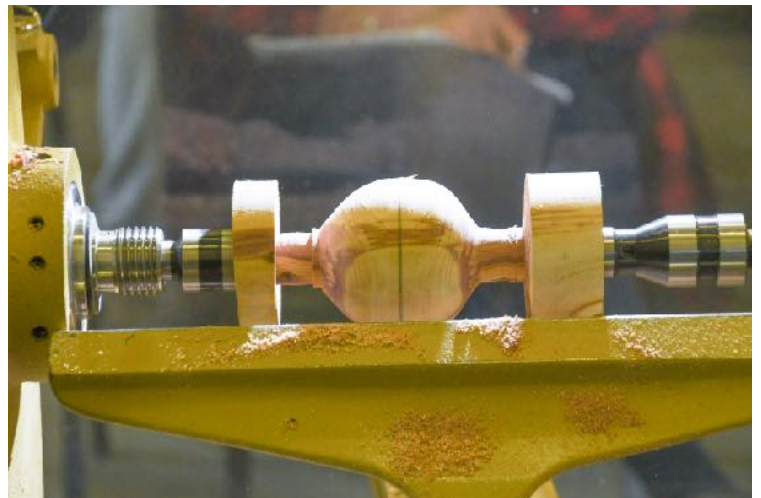

### **May 18 Demo**

At the May 18 demo, yours truly had the privilege of demonstrating the making of a perfect sphere. The key is to make couple of home-made cup centers, one with a tenon and one threaded to fit your tailstock.

The diameter is marked out to delineate the ends of the blank.

Make the shape as close to round as possible before parting and cutting off the ends.

Mount between cup centers with a piece of foam to help keep from marking the sphere. Turn away the ghost image.

Sand thru the grits on each axis and finish with the finish of your choice.

A skew used as a negative rake scraper to round out the shape. Turn the axis until the final shape is achieved.

Thanks to Paul Snyder for the great photos from each meeting and demo.

### **Website of the Month**

This website has a misleading name but is full of supplies to help the wood turner.

### **Demonstrators Wanted**

Looking at the following list, we have demonstrators lined up for the next two months. The club will not meet in July , but after the Club picnic, demonstrators are needed to fill out the calendar for the remainder fo the year. Please consider doing a demo fro the club. There are 31 members but only 7or 8 people volunteer to do most of the demos. Everyone has something to offer the club . If you have turned a project , you have a demo. If you have made a jig to make some aspect of turning easier, you have a demo. Even beginning turners can do a demo, And if you do not want to present alone, you can co- demonstrate with another turner. Sign up sheets will be available at the meetings.We need new people to step up. PLEASE.

### Great Falls Woodturners Club Meeting/Demo Schedule

June 4 – Meeting/Demo –  
Randy Setzer

June 15 - Saw DustSession

Bring your project to work  
on

July - No Meeting / Demo

Aug 6 - Board Elections

Aug 17 - Club Picnic
